# **EMERGENCY**

EMERGENCY (EMP) - When an emergency action is warranted the requirements for obtaining permits normally required may be <u>temporarily deferred</u>. You must apply for the appropriate permit within 90 days of the granting of the Emergency Permit. An emergency is defined in the Zoning Ordinance as "a sudden unexpected occurrence demanding immediate action to prevent or mitigate loss or damage to life, health, property, or essential public services".

# SUBMITTAL REQUIREMENTS FOR EMERGENCY APPLICATION

Military Land Use Co	ampatibility Plant	sina Poquiromonte

Is the site located in an area with any military uses/issues? ☐ Yes ☐ No
Please review the website to determine applicability. <a href="http://cmluca.gis.ca.gov/">http://cmluca.gis.ca.gov/</a> . This requirement applies to all General Plan Actions and Amendments, and Development Projects that meet one or more of the following conditions:
<ol> <li>Is located within 1,000 feet of a military installation,</li> <li>Is located within special use airspace, or</li> <li>Is located beneath a low-level flight path</li> </ol>
Copy of report attached? ☐ Yes ☐ No
3 copies of completed application form and any applicable supplements
1 set of photos
2 copies of a site plan drawn to scale and Folded To 8½ X 11"  Click to download Site Plan and Topographical Map Requirements
1 copy of the site plan reduced to 8½ x 11
Check payable to Planning & Development.

/. SIT	E INFORMATION	
A.	Is this property under an Agricultural Preserve Contract? Y N	
B.	Describe any unstable soil areas on the site.	
C.	Name and describe any year round or seasonal creeks, ponds, drainag How is runoff currently conveyed from the site? ——	ge courses or other water bodies
D.	Has there ever been flooding on the site? Y N If yes, state the year and describe the effect on the project site.	
E.	Describe any proposed drainage and/or flood control measures. How water across and from the site? Where will storm water discharge?	vill storm water be conveyed
F.	Will the project require the removal of any trees? Y N If so, please list them here as requested. Attach additional sheets as n	necessary.
	Type <u>Diameter (at 4' height)</u>	<u>Height</u>
	Explain why it is necessary to remove these trees.	

H. Are there any prehistoric or historic archaeological sites on the property or on neighboring parcels? Y N Unknown

If yes, describe.

l.	Describe all third party property interests (such as easements, leases, licenses, rights-of-way, fee ownerships or water sharing agreements) affecting the project site, provision of public utilities to the site or drainage off the site.
J.	Have you incorporated any measures into your project to mitigate or reduce potential environmental impacts? Y N Unknown If so, list them here. (Examples include tree preservation plans, creek restoration plans, and open space easements.)

# V. STORM WATER MANAGEMENT AND APPLICATION OF LOW IMPACT DEVELOPMENT FEATURES

Is the project located in the NPDES Permit Area<sup>1</sup>? Y N Undetermined

If Yes <u>and</u> 2,500 square feet or more of new or replaced impervious area, the project shall comply with the following:

<u>Tier 1.</u> If the project is 2,500 square feet or more of new or replaced impervious area, submit a *Stormwater Control Plan for Small (Tier 1) Projects*<sup>1</sup> with this application that identifies Low Impact Development measures incorporated into the project design, such as:

- · Limit disturbance of natural drainage features
- · Limit clearing, grading, and soil compaction
- Minimize impervious surfaces
- Minimize runoff by dispersing runoff to landscape or using permeable pavements

<u>Tier 2.</u> If the project is 5,000 square feet or more of new or replaced "net impervious" area (not Single Family Dwelling), or if the project is Single Family Dwelling with 15,000 square feet or more of new or replaced "net impervious" area, submit a *Stormwater Control Plan* with this application that identifies 1) Low Impact Development measures incorporated into the project design and 2) stormwater quality treatment measures. ["Net impervious" is defined as the sum of new and replaced impervious surface area minus any reduction in impervious, such as new landscaped area. It is an incentive for redevelopment projects to increase pervious area.]

<u>Tier 3</u>. If the project is 15,000 square feet or more of new or replaced impervious area, submit a *Stormwater Control Plan* with this application that identifies the above requirements and also identifies retention of stormwater runoff from a regulated storm event.

If No, the project is not located in the NPDES Permit Area, but is a Regulated Project, the project shall comply with the following:

Updated by DE 101818

<sup>&</sup>lt;sup>1</sup> See <u>www.sbprojectcleanwater.org</u> under "Development" for map of the NPDES Permit Area, Stormwater Technical Guide, Stormwater Control Plan template, Stormwater Control Plan for Small (Tier 1) Projects, and a definition of Low Impact Development.

Regulated Project:

- Residential subdivision developments with 10 or more dwelling units;
- 2. Commercial development of 0.5 acres or greater;
- 3. Parking lots of 5,000 square feet or more or have 25 or more parking spaces and are potentially exposed to storm water runoff;
- 4. Automotive repair shops;
- 5. Retail gasoline outlets;
- 6. Restaurants, and
- 7. Any new development or redevelopment where imperviousness exceeds one acre.

<u>Water Quality</u>: Submit a *Stormwater Control Plan* with this application that identifies measures to reduce and remove pollutants from storm water runoff. The *Stormwater Control Plan* will follow the Tier 2 approach described in the Stormwater Technical Guide, with storm water treatment, source control, and LID<sup>2</sup> measures.

### VI. ACCESS

A.	Describe the existing accematerial.	ess road(s) to the site. Inc	clude road widths, shoul	lders, and type of surface
B.	Does property front on a place ls access to be taken from Name of public street:	n this public street? Y N		
C.	Will the proposed access *Submit documentation		0 0 ,	
D.	Describe proposed constr	ruction equipment access		
VII.DE\	/ELOPMENT AND USE			
A.	Existing: Describe the ex	isting structures and/or im	provements on the site.	
	<u>Use</u>	Size (sq ft)	<u>Height</u>	# of Dwelling Units
В.	Proposed: Describe the p	proposed structures and/o	r improvements.	
	<u>Use</u>	Size (sq ft)	<u>Height</u>	# of Dwelling Units

<sup>&</sup>lt;sup>2</sup> Low Impact Development is a design approach that minimizes or eliminates pollutants in storm water through natural processes and maintains pre-development hydrologic characteristics, such as flow patterns, onsite retention, and recharge rates. For examples and design guidance see <a href="http://www.sbprojectcleanwater.org">http://www.sbprojectcleanwater.org</a>. Updated by DE 101818

C.	Will any structures be demolish	ned or removed?	If so, please list ther	n here as requested.			
	Current Use His	storic Use	Age	Rental Price (if rented)			
D.	Describe all other existing uses	of the property.					
E.	How will the project affect the e	existing uses of the pro	pperty?				
F.	Describe any other historic use commercial, or residential uses		nis may include agric	ultural (include crop type),			
G.	Provide a short description of the land uses surrounding the site.  North  South						
	East						
	West						
Н.	STATISTICS: Mark each section	on with either the infor	mation requested or	"n/a" if not applicable.

VIII. PARCEL VALIDITY	
P&D requires applications for development on vacant, unimp that the property is a separate legal lot. The following docum current configuration constitute acceptable evidence of a sep Map, a recorded Official Map, a recorded Certificate of Comp Compliance, an approved Lot Line Adjustment, a recorded R Merger or an approved Lot Split Plat.  A. Type of evidence provided to demonstrate a separate, legal	pents that show the subject property in its parate, legal lot: a recorded Parcel or Final poliance or Conditional Certificate of Reversion to Acreage, a recorded Voluntary
Copy of evidence attached:	□No
Reference number for evidence supplied:	
IX. PUBLIC/PRIVATE SERVICES	
A. WATER:	
<ol> <li>If the property is currently served by a private well, subr</li> </ol>	mit the following for each well:
<ul> <li>a. Pumpage records (electrical meter or flow meter real</li> <li>b. Pump test data</li> <li>c. Location of other wells within 500 feet</li> <li>d. Water quality analysis</li> <li>e. Drillers report (with construction details)</li> <li>f. Copy of applicable well sharing agreement</li> </ul>	adings) for the past 10 years
2. Does the well serve other properties? Y N	
If yes, address(es):	
Is a well proposed? Y N If so, will it serve other prop  If yes, address(es):	

4.	a. Name:
5.	
	If yes, name:
B. SI	EWAGE DISPOSAL:
1.	Existing: Indicate if the property is currently served by the following:
	Yes/No
	a. Septic system* b. Drywell*
	c. Public sewer district If yes, name:
	nit engineering details on septic tanks and dry wells, as well as calculations for leach field size, where cable.
2.	Proposed: Indicate what sewage disposal services are proposed as part of this project?
	a. Septic system* b. Drywell* c. Public sewer district District Name:
*Subr	nit percolation tests and/or drywell performance tests as applicable.
3.	Will the project require annexation to any public sewer district? Y N  Name:
C. FI	RE PROTECTION
1.	Fire protection is (will be) provided by the Fire Department. (Montecito, Summerland, S.B. County)
2.	Is there an existing water main infrastructure in the vicinity? Circle one: Yes No
3.	How far away is the nearest standard fire hydrant? feet.
4.	Is a new fire hydrant proposed? Circle one: Yes No
5.	If a new hydrant is proposed, what is the longest driving distance from the proposed hydrant to the proposed building(s)? feet.
6.	Will fire protection be provided by an on-site water storage tank? Circle one: Yes No
	Tank capacity: gallons
7.	What is the driving distance from the water tank to the proposed structure(s)? feet.
8.	Is a fire sprinkler system proposed? Yes No Location

9.	Describe the access for fire trucks. Include width and height clearance for access and surface material.					
10	Will be zerdeue meteriele be etered er used? V/N List env bezerdeue meteriele which mey be used					
10.	Will hazardous materials be stored or used? Y/N List any hazardous materials which may be used or stored on the site.					

#### HAZARDOUS WASTE/MATERIALS

Please read and answer the following questions if, in the known history of the property, there has been any storage (above or underground) or discharge of hazardous materials or if the proposal includes storage, use or discharge of any hazardous material. Hazardous materials include pesticides, herbicides, solvents, oil, fuel, or other flammable liquids. Attach additional sheets if necessary.

Past & Present:
List any hazardous materials which have been or are currently stored/discharged/produced on the property. Describe their use, storage and method of discharge. Provide dates where possible.
If a characterization study has been prepared, please submit it with this application.
Is the project site on the County Site Mitigation list? Y N Unknown
Is the site on the CA Hazardous Waste and Substances Sites list? Y N Unknown
Proposed Project:
List any hazardous materials proposed to be stored/discharged/produced on the property. Describe the proposed use and method of storage and disposal.
If the proposed project involves use, storage or disposal of any hazardous materials, please contact County Fire Department at 686-8170 to determine whether additional submittals are required.

# Please include any other information you feel is relevant to this application.

**CERTIFICATION OF ACCURACY AND COMPLETENESS:** Signatures must be completed for each line. If one or more of the parties are the same, please re-sign the applicable line.

# Applicant's signature authorizes County staff to enter the property described above for the purposes of inspection.

I hereby declare under penalty of perjury that the information contained in this application and all attached materials are correct, true and complete. I acknowledge and agree that the County of Santa Barbara is relying on the accuracy of this information and my representations in order to process this application and that any permits issued by the County may be rescinded if it is determined that the information and materials submitted are not true and correct. I further acknowledge that I may be liable for any costs associated with rescission of such permits.
