- All approvals made by this Board of Architectural Review are based upon the findings required by the provisions of Chapter 35 of the Santa Barbara County Code.
  - If you cannot appear for an agenda item, you must notify Planning and Development by Thursday, 12:00 (noon), one day prior to the meeting date. If you do not contact Planning and Development by this time, you will not be eligible to appear on the subsequent agenda. Two subsequent continuances are allowed.
  - Projects continued to a future meeting will be agendized by Hearing Support staff per the direction of the planner. It is not guaranteed that projects will be placed on the next meeting's agenda. **Applicants must work with their planner to have projects placed on a future agenda.**
  - Requests for change of scheduling should be made to Planning and Development, 624 W. Foster Road, Santa Maria, California 93455; Telephone (805) 934-6250.
  - If your case appears on the Consent Agenda, please note the following: It is recommended, but not required, that you or your representative appear at the Consent Review (8:45 AM) to answer questions if needed, and to observe the announcement regarding your item at 9:00 AM.
  - In compliance with the Americans Disabilities Act, if you need special assistance to participate in this meeting, please contact the Hearing Support Staff (805) 934-6250. Notification at least 48 hours prior to the meeting will enable the Hearing Support Staff to make reasonable arrangements.
  - Board of Architectural Review approvals do not constitute Land Use Clearances.
  - The square footage calculations and the cut and fill cubic yardage listed in this agenda are taken from the Board of Architectural Review application submitted to our department by the project owner/applicant or architect. These figures are only an approximation and are subject to change throughout the review process. Please consult the final set of BAR approved plans for accurate figures.

<input type="checkbox"/>	<b>FURTHER CONCEPTUAL</b>
<input type="checkbox"/>	<b>PRELIMINARY</b>
<input checked="" type="checkbox"/>	<b>FINAL on consent</b>
<input type="checkbox"/>	<b>REVISED FINAL</b>

**REVIEW** by your board.

**The project was seen by the NBAR on 10/12/07 with comments as follows:**

Project received conceptual review only. No action taken. Applicant may return for preliminary after County Planning Commission. The following comments were made:

It would be nice to eliminate the pit area along the west side of the building.

- Flat roofs would lend themselves well to solar panels.

**The project was seen by the NBAR on 12/12/08 with comments as follows:**

- Addition is not consistent architecturally with existing buildings, the roof gables in particular. The addition is residential in character while the rest of the site is campus-like.
- Show the addition and existing building together to see inconsistencies and determine solution.
- Also, bring information on existing building colors.
- Plans are difficult to read because site plan, floor plans, and elevations are incomplete. Cross-sections are also needed.
- Study ADA requirements for exterior access and design program.

**ACTION:** King moved, seconded by Atkinson, and carried by a vote of 5 to 0 (Small recused) to continue preliminary approval of 07BAR-00000-00258. Applicant may submit for further preliminary approval.

**The project was seen by the NBAR on January 23, 2009 with comments as follows:**

- Addition still does not relate well to existing building architecture.
- Addition needs some vertical elements, with roof type that ties into existing buildings.
- Exterior colors and materials should also match existing buildings.
- Middle building needs a unique design to bridge church architecture to school architecture, if desire is for church and school to have different architectural styles.

**ACTION:** Atkinson moved, seconded by Bettencourt, and carried by a vote of 5 to 0 (Small recused) to continue preliminary approval of 07BAR-00000-00258. Applicant may submit for preliminary approval.

**The project was seen by the NBAR on February 27, 2009 with comments as follows:**

- Street elevation of parish hall needs more depth variation.
- Project is heading in the right direction but details and proportions still need work; clear stories and tower elements are particularly out of scale.
- Option "B" is preferred but needs better scale and proportions.
- Consider windows that don't extend so high and reduced window glazing in general.

Project received further conceptual review only. Atkinson absent. Small recused. No action taken. Applicant may return for preliminary approval.

**The project was seen by the NBAR on March 27, 2009 with comments as follows:**

- Applicant should consider eliminating tower structure or reducing the height of that element.
- Option B2 is approved for preliminary.
- Show rain gutters at final.

**ACTION:** King moved, seconded by Ravatt, and carried by a vote of 5 to 0 (Small recused) to grant preliminary approval of 07BAR-00000-00258. Applicant may submit for final approval.

**The project was seen by the NBAR on May 22, 2009 with comments as follows:**

**A. School Building**

- Detailing for parapets and how roofs drain must copy existing school building.
- Second floor should cantilevered out from first floor on school building.
- Drawings do not match drawings and details that were approved at preliminary.
- Re-study original sketch, which was much better than latest plan.
- Consider reducing the number of doors into storage areas.
- Still need architectural details.
- Still need to match existing school building current plans for expanding school would not math existing school building.
- Show joints, downspouts, etc.

**B. Multi-Purpose Building**

- Show graphic on elevation
- Show joints gutters and other details (like vents).
- Move windows back closer together.
- Indicate soffit style and material.

**C. Parish Hall**

- Center trailer structure needs to be cantilevered out from rest of the building. The entire wall cannot be flat and in the same plane.
- NBAR prefers the graphic over the recessed stucco design.
- Again, show architectural and drainage details.

**ACTION:** Atkinson moved, seconded by Palacios, and carried by a vote of 5 to 0 (Small recused) to continue final approval of 07BAR-00000-00258 to the NBAR meeting of June 26, 2009.

**The project was seen on 6-26-09 with comments as follows:**

**ACTION: Atkinson moved, seconded by King, and carried by a vote of 5 to 0 (Ravatt and Hurley absent) to continue item 08BAR-00000-00164. Applicant may return for final approval on consent.**

Any revisions to the project plans and any additional information regarding this project should be directed to my attention for further review of project consistency. An amendment to this notice would then be returned to your Board. Additional conditions may be applied to the project at the Land Use Permit phase if additional information indicates a need to condition the project to achieve consistency with policies. **Final approval of the Land Use is subject to departmental review.**

**Note the project has changed since the NBAR's conceptual review of July 18, 2008. Specifically, the proposed guest ranch component has been removed and is no longer part of the project. The changes to the project description are shown below in ~~strikeout~~ and underline.**

**~~In addition, signs have been added to the NBAR project description. These were not part of the project during the first NBAR review.~~**

**NOTE signs have been removed from project description. Project was ready for prelim approval however received further conceptual review solely because of addition of signs. Project may therefore go forward for prelim/final at this meeting.**

**PROJECT DESCRIPTION:**

1. Request of Steven Puglisi, architect for the owner, Norman Beko, to consider Case No. 08BAR-00000-000164 for **preliminary/final approval of a new hospitality facility of approximately**

**9,637 square feet with a deck of approximately 1,225 for the winery and an eight unit guest ranch of approximately 2,950 square feet.** The following structures currently exist on the parcel: a winery warehouse of approximately 5,000 square feet, a winery facility of approximately 1,500 square feet, a wine tasting room/office building of approximately 2,000 square feet and wine caves of approximately 6,800 square feet. The proposed project will require approximately ~~2,980~~ 2,329 cubic yards of cut, ~~and~~ approximately ~~1,080~~ 30 cubic yards of fill and approximately 2,299 cubic yards of export. The property is a 77.49 acre parcel zoned AG-II-40 and shown as Assessor's Parcel Number 129-020-012, located at **3940 Dominion Road** in the Santa Maria area, Fifth Supervisorial District.

**The project was seen for conceptual review by the NBAR on July 18, 2008 with comments as follows. Please note that prior NBAR comments do not differentiate whether they referred to guest ranch component or visitor center component)**

- Study cupola dimensions. Provide sections.
- Consider east-west solar exposure issues and ways to reduce energy use.
- Study chimney dimensions; they may be too narrow.
- Consider using roof vents to provide natural interior light.

Project received conceptual review only. Hurley absent. No action taken. Applicant may return for preliminary approval.

The project was seen for conceptual review of signs, and preliminary review of the hospitality facility, on May 22, 2009 with comments as follows:

**NBAR COMMENTS:**

- **Stonework should resemble native stone and earth color.**
- **Second floor will need some provisions for shading the sun.**

Any revisions to the project plans and any additional information regarding this project should be directed to my attention for further review of project consistency. An amendment to this notice will then be returned to your Board. Additional conditions may be applied to the project at the Land Use Permit phase if additional information indicates a need to condition the project to achieve consistency with policies. **Final approval of the Land Use Permit is subject to my review.**

**PROJECT DESCRIPTION:**

Project is a **substantial conformity determination for a multi purpose room of approximately 1,920 square feet and a office space of approximately 750 square feet.** The following structures currently exist on the parcel: a sanctuary of approximately 1,978 square feet, a classroom of approximately 1,184 square feet, and an office building of approximately 990 square feet. The proposed project will require less than 50 cubic yards of cut and fill. The property is a 1.86 acre parcel zoned 1-E-1 and shown as Assessor's Parcel Number 103-740-004, located at **1054 East Clark Avenue** in the Santa Maria area, Fourth Supervisorial District.

The project was seen for conceptual review on April 24, 2009 with comments as follows:

**NBAR COMMENTS:**

- **Westerly Buildings should include more architectural detail because it will be very prominent.**
- **An architectural element should be added to the office entry.**
- **Narrow planters are not adequate.**

**Project received conceptual review only. Atkinson absent. No action taken.  
Applicant may return for preliminary approval.**

Any revisions to the project plans and any additional information regarding this project should be directed to my attention for further review of project consistency. An amendment to this notice will then be returned to your Board. Additional conditions may be applied to the project at the Land Use Permit phase if additional information indicates a need to condition the project to achieve consistency with policies. **Final approval of the Land Use Permit is subject to my review.**

Preliminary review indicates this project complies with the requirements for the AG-II-40 zone and is compatible with the requirements of the County Land Use Development Code, and the policies of the Comprehensive Plan subject to certain conditions.

**Project Description:**

Request of Suzanne Elledge Planning & Permitting Services, Inc, Agent for OSR Enterprises, to consider Case No. 06BAR-00000-00039 for **revised preliminary/final approval of a produce cooler facility of approximately 102,686 square feet of structural development for Phase 1 and 237,636 square feet of structural development for all phases of construction. The total build-out of the project would include approximately 27 acres of site development (including retention basins, parking areas, driveways, etc).** There is currently an existing agricultural water well and an oil well located on the property. Grading to accommodate Phase 1 of the proposed project would include 24,300 cubic yards of cut and 8,550 cubic yards of fill. Future phases of the project would include an additional 2,700 cubic yards of cut and 950 cubic yards of fill. The project site is 244.4 acres gross, 237.8 acres net zoned AG-II-100 and shown as Assessor's Parcel Numbers 128-096-001, -004, -005, located at **the corner of Betteravia and Rosemary Roads** in the Santa Maria area, Fourth Supervisorial District. **(Continued from 03/03/06, 02/08/08, and 11/07/08, 12/12/08)**
