

3.0 RELATED PROJECTS

In order to assess the potential for cumulative impacts to which the proposed development of the Santa Barbara Botanic Garden would contribute, a list of “related projects” was developed. These projects are listed on **Table 3-1** and mapped in **Figure 3-1**. The cumulative impact analysis for each environmental issue addressed in Chapter 4.0, Environmental Setting and Impact Analysis, is based upon this list of related projects as well as general growth anticipated in the project area, as applicable.

Table 3-1
List of Related Projects [1]

MAP NO.	PROJECT	LOCATION	LAND USE	SIZE	STATUS
COUNTY OF SANTA BARBARA
